

DIRECTOR OF INFORMATION TECHNOLOGY

This is an opportunity to lead and manage a centralized Department of Information Technology in a dynamic city government that values innovation, efficiency, and top-quality management.

The City of Rockville is seeking an experienced Director of Information Technology to lead and elevate the information technology function within the organization. The new Director will be responsible for ensuring that the Department supports the respective missions of other City departments and provides a high level of service to managers, supervisors, and other employees throughout the organization.

“The Department is dedicated to delivering timely information and technology services through computer systems, telecommunications systems, telephone systems and the Internet. The Department strives to implement technology to improve the efficiency and quality of services the City provides to citizens.”

The Department of Information Technology manages the City’s telecommunications and cable TV regulatory activities, computer systems, telephone systems, and Geographic Information Systems (GIS).

The Director of Information Technology for the City of Rockville is appointed by and reports to the City Manager. The position is responsible for planning, organizing, and administering a comprehensive range of information technology functions, programs and services.

The City is seeking a Director of Information Technology with proven and extensive experience in information technology leadership and management in a similarly sized local or state government, public agency or comparable private sector organization. The successful candidate will possess a minimum of a Bachelor’s degree from an accredited four-year college or university in Information Technology, Computer Science or a related field and at least seven years of progressively responsible, broad based information technology experience (preferably in a local government setting); or any combination of education, training and experience which provides the required knowledge, skills and abilities to perform the essential functions of the job.

A related Master’s degree would be a plus. Prior information technology experience in a municipal setting is highly desirable. Familiarity with Enterprise Resource Planning systems preferred.

Rockville is the State of Maryland’s third largest city with a population of 62,334 (2011 Census estimate) and is the county seat of Montgomery County, one of the most affluent and well-educated counties in the United States. For additional information about Rockville as a place to live and work, please visit www.rockvillemd.gov

The salary range is \$107,263-\$162,081. The starting salary could be up to \$140,000 depending on the selected individual's qualifications and match with the desired attributes sought by the City. The City offers an outstanding fringe benefit program.

This position will remain open until filled. First review of applications will occur on July 5, 2013. In order to be considered for this position, please send your confidential resume and cover letter with current salary to jmercerc@mercergroupinc.com For further information please contact James L. Mercer, President/CEO, The Mercer Group, Inc., 1000 Cordova Place #726, Santa Fe, NM 87505. Voice: 505-466-9500; Fax: 505-466-1274.
