

WASTEWATER PRODUCTION MANAGER ALEXANDRIA RENEW ENTERPRISES

Alexandria Renew Enterprises (formally the Alexandria Sanitation Authority) seeking an experienced, innovative, motivated and collaborative professional for the position of Wastewater Production Manager to supervise and coordinate wastewater production activities. Alexandria Renew Enterprises desires candidates who have a proven record of successful wastewater production management and is an effective manager, team builder/player and demonstrates a high level of integrity.

The Wastewater Production Manager is responsible for coordinating and reviewing the work plan for wastewater plant production services and activities, assigning work projects, monitoring work flow, reviewing and evaluating work products, methods, procedures and product quality. Wastewater Production Manager selects, trains, and evaluates plant operations/production staff, coordinates training, and works with employees and supervisors to correct/enhance performance.

Wastewater Production Manager plans system and operations improvements utilizing new technology, recommends policy, procedural and equipment modifications and professional practices and techniques, interprets and ensures compliance with permit requirements and federal, state and local codes, regulations and standards. Position responsible for supervising and participating in the development and implementation of department goals, objectives, policies and procedures and developing and implementing standard operating procedures for the wastewater treatment plant.

Alexandria Renew Enterprises is an award winning wastewater treatment facility and is a model for safe, and innovative wastewater treatment. Alexandria Renew Enterprises serves 320,000 people in the City of Alexandria and Fairfax County, Virginia.

Comprehensive information about Alexandria Renew Enterprises available on the department's website at www.alexrenew.com.

Position requires a Bachelor's degree in chemistry, biology, environmental science or related field (PE preferred) and 5 years operations management experience in the wastewater utility industry. Virginia Class 1 License or ability to obtain within appropriate legal requirements necessary. Requires considerable knowledge of the operational characteristics, services and activities of advanced wastewater resource recovery and knowledge of cost savings and process efficiencies.

Starting salary depends upon qualifications and experience plus competitive benefits,

Position open until filled. Resumes submitted electronically by the close of business on September 9, 2016 to: John T. Maxwell, Senior Vice President, The Mercer Group, Inc. at jtmaxwell41@gmail.com.
