

EMPLOYMENT OPPORTUNITY

Local Government Information Systems (LOGIS)

Public Safety Applications Manager

Local Government Information Systems (LOGIS), a 44 year public sector organization, hosts Public Safety Dispatch, Mobile and Law enforcement Records (LRMS) software applications for several public safety agencies mainly within the greater Metro area. LOGIS is currently accepting applications for the position of Public Safety Applications Manager. Responsibilities include coordinating and managing all aspects of the Public Safety software applications. This position is part of the senior management team that directs the activities of LOGIS. This is an outstanding career opportunity that at a minimum requires a B.S. degree in Public Administration, Business Administration, Information Systems Administration or a related field and three years supervisory experience in a public safety environment supporting and utilizing public safety computing systems and applications. Hiring range is \$105,000 - \$125,000 with excellent benefits. The position profile is available at www.mercergroupinc.com. This position is open until filled. Send letter of interest and resume, preferably by email, to:

THE MERCER GROUP, INC.
